## ANNOUNCEMENTS

### Q&A ON THE SOUND SYSTEM TO BE INSTALLED.

#### What will our new sound system consist of?

For our new sound system we will be installing a pair of *digitally steerable array speakers* from Renkus Heinz in the place of the old speakers.

#### What is the benefit?

The new speakers work similarly to a phased array antenna. The new arrays make each driver (that is, each little speaker in the array) play at a slightly different time from the others and, due to the physics of sound waves and interference, make multiple steerable beams of sound that we can precisely control the volume of. *This allows us to have the same level of volume at the front of the church as we do at the back, and to direct the sound down towards you.* This helps to cut down the reverb produced by the sound system without the need for acoustic panels or more speakers in the main body of the church. Additional speakers will be installed in the choir loft and in the main vestibule.

#### When will it be installed?

This depends on when the materials arrive and the schedule of the installation team from Kahl's Sound. *We are hopeful about installing before Holy Week, though this can't be guaranteed.* Our faithful project manager, Mr. Mike Wolf, has completed all of the electrical prep work, saving on time and cost. *Our gratitude goes to him for this service.*

#### What is the cost and how are we paying for it?

Speakers of this quality together with installation will cost about \$55,000. A generous benefactor has come forward and made a donation with the purpose of covering this cost and then some. *In gratitude, please include this individual in your prayer intentions, especially at Holy Mass and during the recitation of the rosary.*

"Let us pray for our benefactors. O Lord, for thy name's sake, deign to reward with eternal life all who do us good. Amen."

*(from the Office of Vespers)*

### Thursday, March 7: St. Thomas Aquinas
