We are grateful for this visit and thankful for all the work Monsignor has done for the Church and the Institute over the years.

Choir Camp, August 5-10, 2018

Many who attend Masses at Institute apostolates remark on the beauty of the liturgy and specifically on the music which is an integral part of the Sacred Liturgy. While regular weekly rehearsals are essential, it is the Institute's Annual Summer Choir Camp that has been extremely effective in honing skills that make our choirs what they are today. The 2018 Choir Camp will take place August 5th-10th, at the beautiful Mount Saint Joseph in Kentucky. Registration is open for children ages 10-18. For five days choristers will be immersed in daily music training, attend classes in Latin, Gregorian chant, music theory, and vocal technique, as well as daily Mass in the Extraordinary Form. Thank you for the generous help you gave to make our first Health Fair successful! Despite a rainy start everything went very well and many neighbors were able to profit from it!

RESURRECTION FROM ASHES CAMPAIGN: RESTORATION UPDATE

Construction Phase I, June 2018 Monthly Update

South wall column/truss pockets are now enclosed by masonry. This shows a truss (the angled steel), bent plates (the steel pieces attached to the wall on both sides of the truss), and the masonry enclosing the truss and the column it is attached to, as well as the masonry that had to be added to the walls to reach the roofline.

Columns on either side of the altar have been enclosed by masonry up to the roof line.

Tuck pointing has been done on major wall sections, many that will be difficult to manage once the decking is installed.

Bent plates have been attached along the top edge of the north and south walls.

Safety lines are set atop the walls around the perimeter of the building and along the roof centerline. These lines are for the safety of crew members working so high off the ground without the benefit of basket lifts.

Decking is being laid! Work began in the northwest corner, around the tower. Metal roof decking serves as the base for roof insulation and, ultimately, the exterior shingles. Decking is corrugated to increase stiffness in spanning from point to point across the steel roof frame. Below: decking uninstalled, decking sheets installed.

The action of three machines and two teams (masonry and steel) in the building at once can be a challenge. These lifts are used to move material, equipment, and team members. Notice two men at the top of the wall. It seems a large space when only people are inside, not so much when machinery is moving around.

GETTING TO KNOW OUR COMMUNITY AT THE SHRINE OF CHRIST THE KING

Welcome to the Institute of Christ the King Sovereign Priest, an international religious community with over 90 apostolates worldwide whose aim is the defense and propagation of the reign of Christ in all areas of human life. The Shrine of Christ the King, Provincial Headquarters of the Institute and Chicago architectural landmark, has maintained its presence in the Woodlawn community since 2004, but sustained significant damage after a 3-alarm fire on October 7, 2015. All Masses are offered in the St. Joseph Crypt Chapel (6415 S. Woodlawn Ave), where St. Benedict's social hall is located on the lower level of the Priory. A parking lot is available adjacent to the rectory.

To access St. Joseph Crypt Chapel:

- **Back entrance behind the Priory from the parking lot, down the ramp.**
- **Gate and staircase, accessible from Woodlawn Ave. Between Church & Priory**
